

MOBIADO INTRODUCES THE PROFESSIONAL 3 GCB COLLECTION - THE ULTIMATE IN LUXURY

Vancouver, Canada – December 8th, 2014: Mobiado, the manufacture of precision luxury instruments - continues the tradition of luxury gold phones with the stunning masterpiece; the Professional 3 GCB. Immediately catching and holding ones gaze, the Professional 3 GCB pays tribute to horological traditions with a stunning contemporary interpretation of a time-honoured decorative skill.

The art of guilloché, which dates back to the 16th century, consists of decorating an object with engraved and intersecting patterns. The brilliance of the incision in precious metals produces a intricate decorative effect that cannot fail to appeal and intrigue. This Professional 3 GCB pays homage by highlighting the unmistakable decorative art of guilloché in a daring combination of traditional and modern craftsmanship.

GCB Gold Frame: Carved from solid brass and coated with 24 Karat gold.

The Professional 3 GCB series combines gold and sapphire crystal to create a new standard in luxury. The frame is CNC machined from brass and then plated with a thick layer of gold. Large sapphire crystal plates are hand painted with gold lettering and precision inset into the gold body. The Professional 3 GCB is an expression of mechanical perfection, mastery of aesthetic details, and the integrity of consistent craftsmanship. Available in 2 versions: Guilloché and Matte.

The Electronics: Absorbing modern technologies.

The Professional 3 GCB is unlocked and will work with any GSM network operator. The phone is dual SIM quad-band GSM (GSM 850/900/1800/1900) and has dual band 3G coverage WCDMA (on main SIM only). It is equipped with a 2.4" QVGA display, expandable microSD memory, camera and video camera, web browser, bluetooth 3.0, email support, and a music player.
